DETAILED ACTION

This action is in response to Amendment filed April 20, 2004. Claim 1 has been amended as requested by the applicant.

Response to Arguments

Applicant's arguments, see Amendment, filed April 20, 2004, with respect to claims 1, 2, 4, 7 and 36 have been fully considered and are persuasive. The rejection of claims 1, 2, 4, 7 and 36 has been withdrawn.

Allowable Subject Matter

Claims 1, 2, 4, 7 and 30-36 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 30-37, reasons for allowance are the same as in the previous Office Action dated February 18, 2004.

Regarding claim 1, the prior art of record fails to teach or suggest directing an optical beam into an optical path and reflecting a first portion of the beam having a first wavelength back out of the optical path, with first and second pluralities of silicon and

polysilicon interfaces oriented substantially perpendicular to the semiconductor substrate. Samara-Rubio (US 6,600,864) teaches a tunable grating with polysilicon (135 and 137) extending into the optical path (103) and oriented substantially perpendicular to the semiconductor substrate (102). Samara-Rubio lacks the claimed silicon and polysilicon interfaces. Samara-Rubio teaches the use of two polysilicon capacitors but the polysilicon only interfaces with the insulators (153 and 155) therefore no interface between the silicon of the optical path and the polysilicon of the capacitors exists.

The remaining claims are dependent from claim 1 and are allowable for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
